Remote Switch Control Boxes

Actuator Switch Boxes for remote control of pump stations, pressure pumps, foaming brush, presoak systems and more. Can be mounted remotely from your equipment to control cleaning functions in the bay.

Gasketed PVC or stainless boxes are designed for moisture and dust protection, but not direct water spray (*except EP1-4X*). Switches can be pre-wired for multiple options. Complete boxes are built to order to meet your specific needs.

EP1A Control box features **PVC** box with gasketed lid with 3-position selector switch for soap, rinse and off. Size is 4" x 4" x 4".

EP1 Control box features **PVC** box with gasketed lid with 8-position rotary switch for soap, rinse and off and 5 other options if needed. Size is 4" x 4" x 4".

EP1SS Control box features **Stainless Steel** box with gasketed lid with 8-position rotary switch for soap, rinse and off and 5 other options if needed. Size is 4" x 4" x 4".

EP1-4X Control box is rated **Nema 4X** for waterproof requirements. Features stainless box with gasketed lid and 4 position selector switch. Size is 6" W x 6" H x 5" D.
