Chemical Application Systems

Ideal for Use With Bug Spray, Presoak Tire Cleaner & Rust Inhibitor

1FPV

Dultmeier Sales Chemical Transfer Systems are ideal for transfer of premixed chemicals and a wide variety of applications.

Air driven pumps are available with Santoprene or Viton® seals. Automatic stainless mixing tank with Hydrominder valve and air regulator with pressure gauge are also included. (Spray wands and hose are not included but are available to meet your needs). Santoprene is best choice for soaps and waxes and some petroleum based chemicals. Viton® is for use with more aggressive chemicals, but compatibility should always be confirmed.
