## IMONEX Electric Coin Mechanisms

Now a Coin Mechanism with the Benefits of a Manual Reject Button along with Coin Logic

**Multi-Coin Electronic Mechanisms** with jam-proof design that you have come to expect. Designed for (quarter & dollar coins), (quarters & .984 tokens) or (quarters, dollars and .984 tokens if token is valued at \$.25 or \$1.00). One slot accepts all coins. 2 or 3 coins can be accepted, but only 2 valuations can be set for acceptance. Rated for 24-volt use. Standard with 7-3/4" x 2" stainless steel faceplate. (Mechanisms for other size tokens also available on request).

Accepts Coins and/or Tokens. Manual coin processing system separates coins without moving parts. Reduces jamming. 24-Volt Optic System replaces coin switches. Electronic components are coated for water resistance. Adjustable for pulses per coin and coins to start. 2" Faceplates are standard, 3" also available.

**Z3 Models** will accept up to 2 coins or tokens at one value. (Example: US quarter = \$.25 or US quarter and token = .25).

**Z32 Models** will accept up to 4 coins or tokens at up to 2 values. (Example: US quarter = \$.25 and US dollar = \$1.00 or US quarter = \$.25 and US dollar and token = \$1.00).

Many Other Coin and Token Options are Available - Call for Pricing.

## IMONEX Coin Acceptors

Now a Coin Acceptor with No Moving Parts

**Mechanical Coin Mechanisms** will accept U.S. Quarters, Tokens, Canadian quarters and Loonies or other foreign coins. No troublesome rockers, cradles or electronics. Perfect for coin meters, vacuums and vending machines.

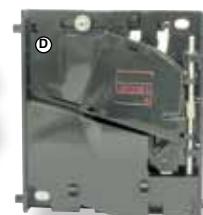

Unique, patented, plastic molded design virtually eliminates jamming and features the highest rate of acceptance ever. Especially effective where dirt, dust or weather can cause problems in rocker and cradle style mechanisms. **Insert only** acceptors will fit most existing 2" face plates.
