

Round "Puck" Style Padlock

Hidden Shackle, Round "Puck" Lock. Great physical security, defies bolt cutters and prying. All locks are 2-7/8" diameter with 1-1/2" thick bodies. Locking shackles are 3/8". Commonly used in a wide variety of applications including coin meters, bill meters and vacuum money doors. Keyed alike. Features drilled and tapped holes in back where required.

American A2000. Solid steel, die cast body is reinforced with anti-saw pins. 6-pin tumbler provides superior pick resistance. No drill holes.

Part No. MR A2000 **Brand** American, No Drill Holes

Master Lock Padlocks

Master Lock Padlocks that you have come to know and respect. Laminated steel construction resists rust and corrosion. Hardened steel shackles are standard. Ideal for conditions where sand, dirt or ice are a problem. All locks shown are available in either "keyed alike" or "keyed different" styles.

No. 312KA locks feature a 4-pin tumbler and weather-proof cover. Base width is 1-1/2". Shackle diameter is .932". Vertical clearance is 3/4"

No. 1 locks feature 4-pin tumbler. Base width is 1-3/4". Shackle diameter is 5/16". Vertical clearance is 15/16" on KA series and 2-1/2" on KALJ series. Horizontal clearance is 3/4".

No. 5KA locks feature 4-pin tumbler. Base width is 2". Shackle diameter is 3/8". Vertical clearance is 1", horizontal clearance is 15/16".

Part No.	Base Width	Key Style
MR 312KA	1-1/2"	Keyed Alike with Cover
MR 1KA	1-3/4"	Keyed Alike
MR 1KALJ	1-3/4"	Keyed Alike *
MR 5KA	2"	Keyed Alike

* Features extra long shackles for added clearance.

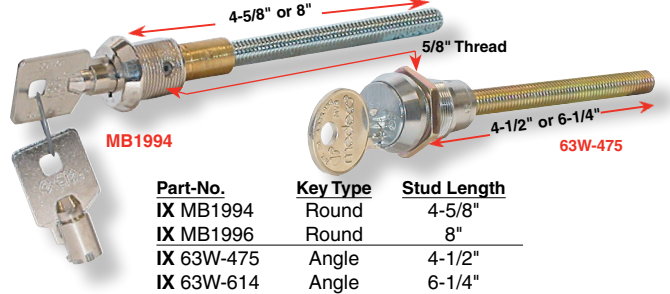

** Price add-on for special key numbers.

Screw-Threaded Locks

Screw Locks for coin meter doors. Available in either 4-5/8" length (inner shoulder to end of thread) to fit many standard coin drawers or in 8" length which can be cut down to fit special length needs. All locks are 5/8" thread size. Two key styles to choose from.

Round MB1994 & MB1996 round key locks are standard in many coin meters throughout the country. An inexpensive, yet good security lock option.

* **Medeco 63W** high security screw locks are virtually pick-proof. Special "angle-cut" keys are very difficult to duplicate giving additional security.

Part-No.	Key Type	Stud Length
IX MB1994	Round	4-5/8"
IX MB1996	Round	8"
IX 63W-475	Angle	4-1/2"
IX 63W-614	Angle	6-1/4"

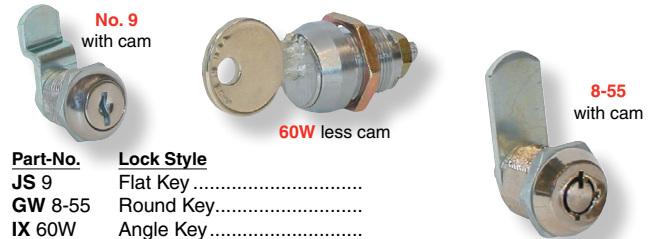

Cam Locks

Cam Locks are designed for use on coin meter access doors or coin drawers. All locks are 5/8" thread size. This style of lock is available in three security levels.

No. 9 locks are an inexpensive flat key lock used for upper meter doors where there is no access to money. **Low security.** Cam plates included.

No. 8-55 locks are a round key lock that offers more security and is used for upper doors as well as coin drawers. **Medium security.** Cam plates included.

* **60W** Medeco, angle key locks feature a double locking design that is virtually pick-proof. Keys are also very difficult to duplicate without proper authorization. **High security.** Cam plates not included.

Part-No.	Lock Style
JS 9	Flat Key
GW 8-55	Round Key
IX 60W	Angle Key
IX CTA08	Flat Cam Plate Only **
IX CTH10	Off-Set Cam Plate Only **

** For 60W Series Locks.
