

## Contoured ATV Sprayers With Boomless Nozzles

Great for weed spraying in pastures, along terraces, and other sloped or uneven terrain. 24 Gallon wrapped & contoured tank fits most ATV racks and provides a more balanced load for safer travel. 4.0 GPM on-demand pump sprays at 25 to 30 PSI. Double tank suction (one each side) provides for continued spraying on sloped ground. Includes adjustable boomless nozzles for wide angle spraying. Single nozzle version covers 12'. Double nozzle version covers 30' with left & right side control (via hand valves next to driver). Pistol grip spray gun (with holster), 20' of 3/8" hose & hose rack. Hold down straps & wiring kit included. Tank rated to 14 lbs/gal (yellow). Dual drain plugs. 5" vented screw lid. 7' fixed and 10', 14' folding breakaway booms also available — **Call for Details!**
