

200 & 300 Gallon Skid Mounted Spraying Systems

For Weed, Insecticide, Fungicide & Fertilizer Spraying

Standard Features for all units include: Heavy-duty welded steel frame that is 34" wide x 72" long x 50" high (93" long on the 300 gallon units) • Powder coat paint finish for extra durability • 200 or 300 gallon poly tanks • Vented top lids and gallonage markers • Hannay hose reels with 300' of 1/2", 600 psi hose • All skid units include pump, strainer, valves, agitation, pressure regulator, gauge (when required) and spray gun.

Note: These skid units can be customized with any pump unit fitting on a 12" x 30" baseplate.

These compact sprayers are made to use in tight spaces.

1A021

200 GALLON UNITS

1A021 Standard Features: Hypro 7560XLR pump with 4.8 HP Honda • 200 Gallon Tank • 11.2 GPM at 150 PSI • 12 volt hose reel with 300' of 1/2" 600 PSI hose and gun.

1A022 Standard Features: Hypro 1502XL pump with 8.4 HP Honda • 200 Gallon Tank • 21 GPM @ 150 PSI • 12 volt hose reel with 300' of 1/2" 600 PSI hose and gun.

DU1A000-LP Standard Features: AR80-LP Diaphragm Pump with 4.8 HP Honda • 200 Gallon Tank • 20 GPM @ 290 PSI • 12 volt hose reel with 300' of 1/2" 600 PSI hose and gun.

1A000 Standard Features: AR403 diaphragm pump with 4.8-Hp Honda • 200 Gallon Tank • 10 GPM at 580 PSI • 12 Volt hose reel with 300' of 1/2" 600 PSI hose and gun.

1A001 Standard Features: AR503 diaphragm pump with 7.9 HP Honda • 200 Gallon Tank • 14 GPM at 580 PSI • 12 Volt hose reel with 135' of 3/4" 600 PSI hose and gun

1A012 Standard Features: AR1064 diaphragm pump with 20 HP Honda electric start • 200 Gallon Tank • 28 GPM at 580 PSI • 12 Volt hose reel with 200' of 3/4" 600 PSI hose and 21" adjustable gun. Best selection for tree spraying.
