

**Nitrile Gloves** provide excellent protection from abrasion and puncture while providing resistance to many hazardous chemicals and solvents. Nitrile performs well in a wide range of temperatures. Ideal choice for handling caustics, oils, petroleum products, herbicides, pesticides and alcohols. Non-slip grip for wet or dry use. Available in either reusable or disposable styles and lined or unlined styles. Unlined gloves reduce potential product contamination while lined gloves provide increased comfort.

## Disposable Nitrile Gloves

**The Toughest Disposable Gloves Available!**

**Black Mamba** and **Blue Mamba Nitrile Gloves** are designed for applications where standard disposable gloves just can't survive. The toughest disposable gloves available, can even be reused in many cases. Patented Nitrex Polymer offers superior strength and tear resistance and three times the chemical resistance of latex or vinyl. Sold in boxes of 100 ambidextrous gloves.
