## Vacuum Clean-out Canisters

Makes cleaning out vacuums easy. Canisters fit into lower vacuum housing and collect debris. When canister is full, simply lift out and remove debris to your trash bins. Canisters can be used over and over again.

**Models 635201** (*Doyle & IVS vacuums*) and **DC555** (*Doyle, Adams & others*) are constructed of a heavy duty collapsible vinyl material with a spring type band. Diameter on these models is 18-1/2" and height is 8" when extended.

**Model DC920** is a heavy duty, molded plastic canister. Diameter is 18-3/4" and height is 8". This model can be used on *Doyle, Adams* and many other vacuums on the market today.
