

Photo-Electric Eye Sensor Kits

TELCO, Thru-Beam, Electric Eye Sensors for the Car Wash Industry. With special sealing design, these units are ideal for use in high humidity environments such as Conveyor or Automatic Car Wash systems. Designed to handle vibration, alignment, moisture and sunlight without affecting performance.

Complete units are made up of a transmitter, receiver, amplifier and cables. Different voltages are available to meet your specific needs. Thru-beam operation works up to 115'. Individual replacement items are also available. Standard with 50' cables. Amplifiers fit standard 11-Pin sockets. *(The transmitter and receiver can also be mounted in parallel to form a proximity system if required. Range is only 3 meters in proximity applications).*

* Includes Amplifier, Transmitter, Receiver & Cables.

Transmitters & Receivers

Thru-Beam Design allows trouble-free operation up to 115 feet. Ideal for high humidity environments. Handles vibration, moisture and sunlight without affecting performance. Common replacements for a wide variety of applications including many of the most popular automatic car wash systems.

— Many Other Models Available —

Part No.	Product
TL LT05LCW	Transmitter with LED & 50' Cable
TL LT100HLTB58JC	Transmitter with LED & Quick Connect
TL LR05LCW	Receiver with LED and 50' Cable
TL LR110LTB58JCC	Receiver with Quick Connect

Test Amplifiers

The ideal tool for testing Telco Photo Eyes. Can be used to check alignment and signal strength. Can also be used to determine if a transmitter or receiver has a cut wire or is not properly connected. Simply plugs into your 11-pin amp base for test and check of the system. Available in 115-volt or 24-volt AC or DC. One tool can be used to easily check multiple systems or locations.

Part No.	Voltage
TL TPA14A901	115 AC
TL TPA14A902	24 AC
TL TPA14A903	24 DC

Photo-Electric Eye Cable Assemblies

Replacement Cable Assemblies for Telco Photo Eye sets. Standard with straight or 90 degree quick connectors. Shown in different lengths as noted.
