

Clear Front Vending Machines

AMS Vending Machines are the perfect choice to offer impulse items to your customers as well as increasing revenues for your locations. Reliable and rugged machines with patented "Sensit Guaranteed Delivery" system. A variety of options for indoor or outdoor locations.

Clear front doors allow customers to easily see the items they want to purchase. Different size helix coils allow for a variety of large and small product offerings. All machines are set to accept coins or bills. Front load design. ETL rated, 115Volt, 60Hz for main power, 24volt at payment and selection control board.

Ambient Rated, Machines (Inside or Outside temperatures) are for standard vending items like towels, fragrances, protectants and tire cleaners or snacks that don't need to be cooled.

Chiller Machines can vend standard items as above but are also refrigerated for offering snack products or bottled sodas and water that need to be cooled.
