## Dual Hose Kit

4015KIT

9210OLD

Vacuum shown with Optional 4015KIT Dual Hose Adapter, 2" Claw Nozzle, and 1-1/2" Crevice Tool

A great option to JE Adams Vacuums. Most JE Adams Vacuums can be ordered with the **Dual Hose Kit** as an option. This allows the customer to use the standard vacuum claw or easily switch to the 1-1/2" crevice tool. Vacuums ordered with this option will come with two hoses and hose hangers as well as the changeover valve. This option is for new vacuums only and is not available for existing units in the field. Crevice tool and hose are only available in black. Standard 2" claw and hose are available in different colors.
