

Bio-fuel is a very aggressive cleaning agent and requires special dispensing equipment to prevent damage to engines. As the bio-fuel cleans storage tanks, hoses, piping, etc., a special dispenser filter is needed to prevent the released contaminants from migrating into an engine.

800BHG-10

300BMG-10

Cim-Tek® Filtration has taken fuel filtration to the next level in its Bio-Tek® Line of products. Bio-Tek® combines all of the state-of-the-art advances in fluid filtration to offer:

- Bio-Tek® Exclusive **Progressive Density®** 2 micron filtration
- **3 - 4 Longer Filter Life** due to higher dirt holding capacity
- Models to detect **Phase Separation and Water** in the fuel
- Unique **Pre-Lubed Gaskets** . . . reduces installation time
- **Dispenser & Pump Filters for all bio-fuels**

Filtration Products Designed For Bio-Fuels

Protect Your Customers. Dispense Clean Bio-Fuel

Bio-Tek Microglass (Particulate Removal for up to E20, B100 & ULSD)			Std.
Part No.		Use With Head	Pkg.
CI 260BMG-02	2 Micron Particulate Element	200H-1, 3/4" FPT	12
CI 260BMG-10	10 Micron Particulate Element ...	200H-1, 3/4" FPT	12
CI 260ABMG-02	2 Micron Particulate Element	200AH, 1" FPT	12
CI 260ABMG-10	10 Micron Particulate Element ...	200AH, 1" FPT	12
CI 300BMG-02	2 Micron Particulate Element	200H-3/4, 3/4" FPT	12
CI 300BMG-10	10 Micron Particulate Element ...	200H-3/4, 3/4" FPT	12
CI 400BMG-02	2 Micron Particulate Element	400-1, 1" FPT	12
CI 400BMG-10	10 Micron Particulate Element ...	400-1, 1" FPT	12
CI 800BMG-02	2 Micron Particulate Element	805, 1" FPT	6
CI 800BMG-10	10 Micron Particulate Element ...	810, 1" FPT	6

Bio-Tek Hydroglass (Particulate & Water Removal for up to E20, B100 & ULSD)			Std.
Part No.		Use With Head	Pkg.
CI 260BHG-02	2 Micron Particulate & Water Element.....	200H-1, 3/4" FPT	12
CI 260BHG-10	10 Micron Particulate & Water Element ...	200H-1, 3/4" FPT	12
CI 800BHG-02	2 Micron Particulate & Water Element.....	805, 1" FPT	6
CI 800BHG-10	10 Micron Particulate & Water Element ...	810, 1" FPT	6

Bio-Tek High Alcohol Content Filter for E85, M85, B100 & ULSD			Std.
Part No.		Use With Head	Pkg.
CI 300BHA-01	1 Micron Particulate Element	50017, 3/4" FPT	12
CI 300BHA-05	5 Micron Particulate Element	50017, 3/4" FPT	12
CI 400BHA-01	1 Micron Particulate Element	50032N, 1" FPT	12
CI 400BHA-05	5 Micron Particulate Element	50032N, 1" FPT	6

Filter Heads	FPT			Std. Pkg.
	Part No.	In/Out	Material	
CI 200H-1	1"	Cast Iron	3/4"	6
CI 200AH	1"	Cast Iron	1"	6
CI 200H-3/4	3/4"	Cast Iron	3/4"	6
CI 400-1	1"	Aluminum	1"	1
CI 805	1"	Aluminum	1"	1
CI 810	1-1/2"	Aluminum	1-1/2"	1
CI 50017	3/4"	* Nickel Plated	3/4"	1
CI 50032N	1"	* Nickel Plated	1"	1

*50017, 50032N & 50011N are Nickel-Plated Cast Iron.

NEW FILL-RITE Bio-Fuel Filters

Fill-rite Biofuel Microglass Filters deliver dependable fuel filtration for a wide range of fuels including biodiesel blends up to 20% and B100. Microglass filters capture dirt, rust, and microbial growth contaminants from the fuel supply before they work their way into your equipment – ensuring pristine fuel quality and maximum equipment protection. Filters are available in either 2 Micron or 10 Micron filtration and feature a spin-on design for quick, easy installation and replacement. For gasoline/ethanol, diesels, and biofuels – **Not for aviation fuels.**

Size is 8.8" tall x 3.8" in diameter. Equivalent to Cim-Tek 72230 & 72234 filters.

Part No.	Micron	Membrane	Filter Thread	GPM
FR F2502MGMO	2 Micron	Microglass	1"-12"	25
FR F2510MGMO	10 Micron	Microglass	1"-12"	25
FR 1200KTG9075	3/4" Cast Iron Filter Head & Nipple			
FR 1200KTG9100	1" Cast Iron Filter Head			

1200KTG9100 1" Cast Iron Filter Head Part F2510MGMO

Tank Dryer

Removes Water From Your Fuel Storage Tank

- Removes water from diesel, biodiesel, gas and fuel oil
- FAST. . . Effective in as little as 24 hours
- Reduces engine downtime and maintenance costs

Part No.	Description
CI 60038	Tank Dryer
