

Brooms

Modular Sweeping Brooms that are ideal for commercial cleaning. A wide variety of types and sizes that are ideal for use with forklifts and skid loader facilities. Many applications for government and municipality, warehouse and distribution, lumber yards and agriculture.

Features: No moving parts to breakdown • Simple, but heavy-duty design • Can be attached to a variety of equipment • Long lasting bristle wear • Can be used on wet or dry materials • Large size reduces cleaning time and lowers operating costs • Works in either push or pull modes • Unique design allows for easy bristle replacement if needed • Optional magnet accessory allows for easy pickup of nails or staples • Polypropylene bristles and powder-coated frames are a standard feature on all brooms.

ValuSweep Brooms

ValuSweep Brooms are designed for light-duty cleanup of indoor surfaces. All brooms feature 5 rows of replaceable bristles. "Quick-Tite" pockets will accept most forklift forks. Overall height is 9". Available in 48" or 60" lengths.

VMB Magnet Kits are ideal for collecting nails, staples and other metal objects.
