

## Polypropylene PIPE FITTINGS

**Features:** Reinforced Polypropylene • Heavy Duty (Schedule 80) • For Acid based fertilizers • Available in sizes 1/2" thru 4" • 150 PSI - W.P. at 70° F.; Maximum Temperature is 150° F. • Excellent Chemical Resistance • FDA approved for potable water.

**Less 10% Discount On Std. Pkgs.**

While having excellent chemical resistance, Polypropylene fittings lack the strength of the Nylon (shown on adjacent pages) but are compatible with certain acids which attack Nylon. Polypropylene is the best selection for ACID based products.

**Note: Fittings with a "TW" Prefix are Hypro Brand.**
