SuperKlean™ DuraSpray Inline Spray Wands

DuraSpray Inline Spray Wands from Super Klean are designed for overhead hanging hose applications. 304 Stainless bodies with optional cover colors. Rated up to 500 PSI, (150 PSI at 200° F.). 4.9 to 8 GPM at 75 PSI or 7 to 12 GPM at 150 PSI. Safety trigger lock feature prevents accidental spraying. Inlet is 1/2" FPT.

Part No.	Body	Cover	Wt.
VD DS150SDB	304SS	Blue	1.40 lbs.
VD DS150SR	304SS	Red	1.40 lbs.
VD DS150SW	304SS	White	1.40 lbs.

SuperKlean™ Thermosmart Spray Wands

Super Klean Thermosmart Spray Wands have the same features as the wands at left, but have the added feature of a built-in temperature indicating window with safety cover. USDA/FDA compliant for correct output temperatures.

The USDA is actively promoting that the food industry maintain wash water temperatures above 165° F. This wand design allows operators to know immediately what the output temperature is. Brass, aluminum or Stainless construction with **White** cover.

Window turns brown when above rated temperature
Window turns green when within 2° F of rated temperature
Window turns blue when below rated temperature

Part No.	Body	Cover	Wt.
VD T150AW	Aluminum	White	1.7 lbs.
VD T150BW	Brass	White	3.0 lbs.
VD T150SW	Stainless	White	2.8 lbs.

SuperKlean™ Wash Down Wands — Front Trigger —

Super Klean DuraFlow Front Trigger Spray Gun is designed for plant washdown, truck wash, tank cleaning and industrial spraying. Unique design allows for variable spray pattern from a fan to solid stream. Automatic, drip-free shut-off is also a standard feature. Rated for 200° F. and 150 PSI, water only - **Not for use with steam.**

DH150SDB Dark Blue 1/2" FPT Inlet

Front trigger can be locked to maintain any nozzle pattern. Stainless steel body with durable cover. Rated to 6.5 GPM at 50 PSI and 11.90 GPM at 150 PSI. Weight is 1.53 lbs.
