

Hypro 9915 Series Diaphragm Pumps offer the most complete performance available for spraying and pumping applications involving herbicides, pesticides, liquid fertilizers, and other hard-to-handle fluids. A great choice for a wide array of applications, including row crop & tree spraying, turf & lawn care, washdown, and fluid transfers. Pumps are constructed with a multi-piston design for premium pressure generating performance and long lasting efficiency across the life of the pump.

Hypro 9915 Diaphragm Pumps can handle fluids up to 140° F. and be run dry. Models below can be driven by 550 RPM PTOs, 2 to 25 HP gasoline engines, or electric or hydraulic motors. Some models include a drive package with gear box reducer and pressure control unit. *(All pumps require some type of pressure control if not included. Pressure controls are shown on adjacent pages and can be either direct mount or remote mount.)*

Features: Polypropylene or Black-oxide Anodized Aluminum housings • 316 Stainless Steel Check Valves with Spherical Poppets for higher volume efficiency • Visual oil level sight glass • Self-priming operation • Premium quality *Duramax* Diaphragms & Crown-shaped Pistons • Self-lubricating, oil-bath design • Wide spectrum of flows & pressures • Corrosive, abrasive & general use chemical compatibility *(Call for chemical limitations)* **Note:** 40-50 Mesh Screen recommended upstream of pumps.

9915 SERIES TREE SPRAYING SELECTION GUIDE:

Height	Pump	Capacity	Spray Gun	Nozzle	Gas HP
30-35 ft.	DP252	7 GPM 290 PSI	3381-0010	3385-3000	3 HP
	D303 D403	9-10.8 GPM 580 PSI	3381-0010 3381-0013		
35-40 ft.	D503	14.3 GPM 580 PSI	3381-0011	3385-4000	9 HP
	DP503	29 GPM 725 PSI	3381-0011		
45-50 ft.	D1063	36 GPM 725 PSI	3381-0011	3385-6000	18 HP
	D1504	725 PSI	3381-0011		

NOTE: Hypro 9915 Series pumps are NOT exact dimensional drop-in replacements for 9910 Series pumps – *Call for Details!*
