

## CPI/MEI/MARS Bill Acceptors

Built on a legacy of over 20 years of MEI/Mars reliability and performance, the new CPI Talos validators are the industry's most modular note validation system.

**Standard Features Include:**

- Slide in replacement for original MARS validators.
- Improved jam performance provides a 50% decrease in bill jams
- Enhanced sensor technology provide the "best in class fraud protection".
- 2 times faster note validation for higher throughput.
- 100% backwards capability enables seamless integration with existing bezels
- 4-way bill insertion, (face up, face down, either direction)
- 2.5 seconds from insertion and approval to completed bill stacking
- 95% acceptance rate at nominal conditions
- Rated to 140° F.
- 24VAC Models shown but 110 volt and 12 volt available.

Part No.	Voltage	Acceptance	Stacker
AV T612-U3EUS	24 VAC	\$1/\$5/\$10/\$20	300 Bills
AV T6S2-U5MUS	* 24 VAC	\$1/\$5/\$10/\$20	500 Bills

**In spring of 2019 our partnership put...**

*"In spring of 2019 our partnership put together a package of equipment with Dultmeier reps and production staff to totally makeover our 3 bay carwash in Morro Bay, Ca. We upgraded to include credit card acceptance and 3 phase dryers for each bay. On arrival of equipment, the Dultmeier staff made themselves available by phone to work through the few small glitches and educate our team on nuances of the system. We could not be happier with the equipment and service. More importantly, our customers have overwhelmingly expressed their pleasure at the upgrades! We had the unfortunate experience of a professional thief removing all three bay control boxes in 6 minutes in the middle of the night last Nov. I contacted the Dultmeier production staff that same Saturday morning and they produced and shipped all three units in two days and we installed on Wed. and were back in business. That response is the definition of EXCELLENT SERVICE!"*

**Ken Keatts - Morro Bay Carwash**

## Bill Acceptors @ COINCO

Industry leading Bill Validator/Acceptors from Coinco. An ideal choice for Car and Truck wash bays, bill changers, vending machines and more, robust and flexible design means less hassels and more profits for you.

**Key Benefits:**

- Industry leading bill acceptance of \$1, \$5, \$10, \$20 bills
- Industry leading security and water protection
- Attention grabbing LED lighting
- Tool-free disassembly
- Status indicators for trouble shooting
- 400 bill stacker box
- 24 or 110volt
- Mask/Bezel options for different machines, (note B bezel models replace common Mars acceptors)
- Intelligent bill transport software reduces jam conditions
- Other configurations available.

Part No.	Wt
AV VL61B 110 volt, B mask/bezel, 400 bill stacker.....	4 lbs.
AV VL61R 110 volt, R mask/bezel, 400 bill stacker.....	4 lbs.
AV VL62B 24 volt, B mask/bezel, 400 bill stacker.....	4 lbs.
AV VL62R 24 volt, R mask/bezel, 400 bill stacker.....	4 lbs.
