# Chemical Injectors

## Pulse Pump Injector

**Pulse Pump Injectors** from *General Pump* are designed to inject chemicals with every stroke of the pump. Designed to mount to the valve port of *General Pump* models. Construction is 303 Stainless Steel with Buna diaphragm. Inlet and outlet are 1/8" FPT, pulse port is 1/4" FPT. To convert existing pumps, one adapter and one valve assembly is also required from the chart shown.

PUMP SERIES	ADAPTER FITTING	VALVE ASSEMBLY
60 (TC)	520222	103036
44 (EZ)	520197	103036
63 (TX)	520197	103036
47	520190	103035
66 (TSF)	520223	103090

Part No.		Maximum Pressure	Maximum Flow
IP 100906	Pulse Pump	1500 PSI	.75 GPM

## ChemFlex Injectors

Innovative Chemical Injectors for use with Automatics, Self-Serve Systems and even pressure washers applications. 3/8" MPT x 3/8" MPT or PQC x 3/8" MPT stainless steel inlet and outlet ports and PVDF/Kynar injection bodies with Teflon o-rings, ensure the highest chemical and corrosion resistance available.

110/121/131  
MPT Models

Color coded and clearly marked for a wide variety of flow ranges. Available with single and double chemical barbs for injection of more than one chemical at the same time. Slip-in replacement for injectors used on most of the common high pressure automatics in the car wash industry. Chemical barbs are 1/4" and are standard with internal threads to accept a wide range of orifice tips, (sold separately). Rated to 1000 PSI on MPT and 500 PSI on PQC models at 175° F.

## 6350 Pulse Pump

**Pulse Pump** from *Cat Pumps®* permits chemical injection at pressures up to 3000 PSI. Mounts on the center inlet port of many *Cat Pumps* and is activated with each stroke of the pump. Includes a prime bulb to start chemical. Requires correct 76400 Series adapter for specific *Cat Pumps®* models.
