

# E1454 **Stainless Steel Rotor Arms**

**Stainless Steel Rotor Arms** are designed to spin and rotate high pressure nozzles for high impact cleaning and rinsing. Angle outlets at 11 degrees cause spinning under pressure. Precision welded and balanced design ensures smooth performance as well as helping to eliminate dangerous vibrations.

Polished stainless arms are rated to 4000 PSI and 250 F. Available in 2, 3 or 4 arms with 2, 3, 4 or 5 nozzle ports. Models shown are for 1/4" MPT but arms for 1/8" nozzles are also available.

All arms feature special G3/8 female inlet port that is designed specifically for Mosmatic high pressure swivels with G3/8 male thread, (Series DYF, DYG, DYL). Lightweight but robust, most arms weigh only 1/2 to 1 lb. Other sizes than those shown are available. Distance from surface and nozzle angle will affect pattern and coverage. Match nozzle orifices to pump flow and pressure. Common stainless MEG nozzles are available to meet your needs.

## Two Arm Rotor

2 Nozzles

3 Nozzles

### Two Arm

Part No.	Diameter	Arms	Nozzle Ports
MM 82706	6"	2	2
MM 82721	6"	2	3
MM 82708	10"	2	2
MM 82723	10"	2	3
MM 82710	14"	2	2
MM 82725	14"	2	3
MM 82712	18"	2	2
MM 82727	18"	2	3
MM 82715	24"	2	2
MM 82730	24"	2	3
