

Anyone that has ever run maintenance in a plant knows there are several different air connector styles on the market – multiple quick-disconnect plug manufacturers means each plug needs the correct style of mating coupler. The MultiSocket product line from Aignep allows end users to mate three different styles of plugs with one universal quick-disconnect coupler. This product line accommodates Industrial, ARO, and Tru-Flare style connectors. MultiSocket connectors are designed for air applications and used in a variety of industries including: food/beverage processing, packaging, printing, pulp/paper & building materials, injection/blow molding, robotics/tooling, agriculture, and durable goods production.

Materials:

- Body: Nickel Plated Brass (Stainless Steel Available)
- 420 Stainless Steel Ball
- NBR O-rings/Seals (FKM Available)
- 302 Stainless Steel Springs

Technical Specs:

- Pressure Rating: 0-232PSI
- NPT Threads
- Temp Rating: -4 to 176°F
- REACH Certification (1907/2006)
- RoHS Certification (2011/65/CE)
- PED Certification (2014/68/UE)
- Silicon Free
