

## DURA Auto-Batch™ Drone Hot Load Systems

Fast. Simple. Safe.™

- Softer fluid transfer that minimizes shear when transferring formulations with encapsulation
- Self-priming diaphragm pumps with internal by-pass
- 4 High-flow Dura-Pumps™ (18GPM) mounted in Direct Injection frame
- 4 Dura Auto-Batch™ Meters mounted in Direct Injection frame
- Preset meters & pumps shut off at pre-set amount
- System comes with all hoses, fittings, clamps, bars and valves
- System available in 110 Volt and 12 Volt with Viton® Seals
- Includes a 2-year Warranty & Maintenance Program
- All tanks sold separately—not included

Viton® is a registered trademark of DuPont Performance Elastomers

The Dura Products Chemical Compatibility Chart *should be considered as a guide only* due to the many variables which may affect the compatibility of materials. This guide is based on the most recent information obtained from a variety of suppliers and chemical producers and is believed to be accurate. Actual decisions on materials used need to be tested and evaluated by the customer for each specific application. The responsibility of proper chemical compatibility of equipment and material used is the full responsibility of the customer. Dura Products does not warrant product damaged by non-compatibility.

For help with the proper selection of a pump for your application needs, please call (855) 502-3872.
