

Band Lock Style Suction Pipe Tubes

Vacuum Pipe Tubes are primarily used for vac truck applications but can be used in any application requiring vacuum functionality. Available in 4", 6" and 8" diameters. Aluminum pipe tubes with galvanized steel ends. Pipes come standard with Male x Female Band Lock Style connectors. Common sizes are shown but any length and/or end configuration can be built to order. Different wall thickness available upon request, also. Clamps sold separate.

Part No.	Style	Size	Length	Wall Thickness
KR BL4X3-MXF	Aluminum	4"	3'	.072"
KR BL4X5-MXF	Aluminum	5"	5'	.072"
KR BL4X8-MXF	Aluminum	4"	8'	.072"
KR BL4X10-MXF	Aluminum	4"	10'	.072"
KR BL4X20-MXF	Aluminum	4"	20'	.072"
KR BL6X3-MXF	Aluminum	6"	3'	.083"
KR BL6X5-MXF	Aluminum	6"	5'	.083"
KR BL6X8-MXF	Aluminum	6"	8'	.083"
KR BL6X10-MXF	Aluminum	6"	10'	.083"
KR BL6X16-MXF	Aluminum	6"	16'	.083"
KR BL6X20-MXF	Aluminum	6"	20'	.083"
KR BL8X3-MXF	Aluminum	8"	3'	.083"
KR BL8X5-MXF	Aluminum	8"	5'	.083"
KR BL8X10-MXF	Aluminum	8"	10'	.083"
KR BL8X20-MXF	Aluminum	8"	20'	.083"

Dultmeier Did Not Disappoint...
*"Dultmeier did not disappoint. They had the exact parts I needed for my 400 gallon poly water tank, and the price was right. Delivery was fast.
 I won't hesitate to order from their on-line catalog the next time I need an item they carry."*

Greg B.

Crevice Tools

Suction Crevice Tools for vacuum applications. Heavy-duty, yet lightweight. Aluminum construction. Overall length is 54".

- Part No.**
 KR IK232404 4" Male Band Lock Style End x Crevice
 KR IK232406 6" Male Band Lock Style End x Crevice

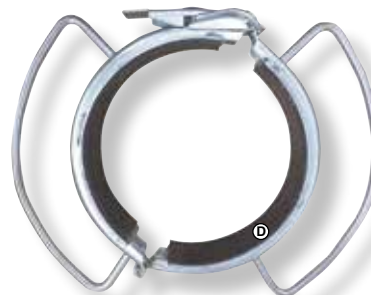

Crown Nozzles

Steel End Nozzles for breakup of suction material in vacuum applications. Serrated ends with air holes aid in action. Available with male or female inlets. Can be used with steel or aluminum suction pipes.

- Part No.**
 KR SK173404 4" Band Lock Style Crown Nozzle.....
 KR SK173406 6" Band Lock Style Crown Nozzle.....
 KR SK173408 8" Band Lock Style Crown Nozzle.....

Hydro Vac Clamp with Handle

Hydro Vac Clamps are designed to be used with dig pipes and/or crown nozzles. The welded handles make it easier for an operator to manipulate the dig tube and work more efficiently. Galvanized steel construction.

- Part No.**
 KR PRLC400 4" Pipe Clamp with Handles
 KR PRLC600 6" Pipe Clamp with Handles
 KR PRLC800 8" Pipe Clamp with Handles

Manhole Pipe Clamps

Manhole Pipe Clamps allow for an operator to stabilize large contiguous sections of pipe and use the manhole opening as the support. This helps to alleviate strain on the boom arm. Clamp support arms are made from schedule 40 steel. Galvanized coating for increased life span.

- Part No.**
 KR PRCL600M 6" Manhole Pipe Clamp
 KR PRCL800M 8" Manhole Pipe Clamp
