Tank Cleaner

mosmatic

Mosmatic Tank Cleaner is an excellent solution for complete and consistent cleaning inside tanks and containers. Water pressure driven, the stainless steel Tank Cleaner achieves 360° automated or manual internal cleaning without the need for post-processing.

A unique feature of the Mosmatic Tank Cleaner is the infinitely adjustable rotation speed. Simply loosen a single screw to set the perfect adjustment for different pump capacities and cleaning requirements. Mosmatic stabilizer nozzles (sold separately) allow for enhanced distance cleaning in large diameter tanks.

Available in 45° and 20° drive angles. 1/2" NPTF Inlet. Rated to 2900 PSI and 250° Max Temp.

* Requires (2) EG nozzles that are sold separately and must be matched to your flow and pressure requirements.
