

mosmatic UnderCarriage Cleaners

Hurricane and Hurricane Pro UnderCarriage Cleaners from Mosmatic. Ideal for use on trucks, cars, fleet vehicles, construction equipment, transport vehicles and more. A great accessory for your hot or cold water pressure washer. Easily reach those hard to get to areas on the underside of most vehicles. Protecting the life of just one vehicle oil pan can easily pay for the cost of these units.

80611 & 80612

Stainless Steel Construction with Swiss engineering. Requires only about 9" of clearance but can clean 2' to 6' from the spray deck depending on nozzle selection. All units have (1) front and (2) rear caster wheels for a wide range of motion. Rated to 4000 PSI and 250° F. Trigger wand/hose assemblies are included as shown.

80617 & 80618

Regular Nozzle Models can effectively clean up to 2' from the spray deck.

Stabilizer Nozzle Models can effectively clean up from 5' to 6' from the spray deck.

Fixed Pan Models are designed for vertical spray cleaning only.

Adjustable Pan Models are designed for vertical or horizontal cleaning with 6 spray angle adjustments.

Low Pressure/High Pressure Model 80618 features (2) wand/hose assemblies that allow for applying low pressure chemical applications such as salt neutralizers, degreasers or other chemicals and then follow up with high pressure wash and rinse.

Stabilizer Nozzles

With the stabilizer nozzle, you can increase the distance and pressure impact to your surface.

HP-Nozzles (Regular)

Standard HP, 15° nozzles are used to achieve the cleaning on the object.

80617 & 80618
