

## Sandpiper® Beast 2” Clog-Resistant AODD Pump

The “Beast” Series Clog-Resistant Pumps from Sandpiper® is a 2” Air Operated Double Diaphragm pump line that boasts a clog resistant design and heavy-duty flap valve. Available in NPT, BSP (*Tapered*), and ANSI Flange (*non-metallic only*) port options. Available in metal body (*Cast Iron, Aluminum, or Stainless Steel*) and Non-metallic Body (*Polypropylene*). The **Beast Series** resists clogging by preventing the collection of small solids and packable dust. Longer service life than conventional flaps – even under severe conditions. The patent-pending 316SS Flap and Seat are at the heart of the anti-clog functionality of this pump series. This design also optimizes pump capacity and efficiency.

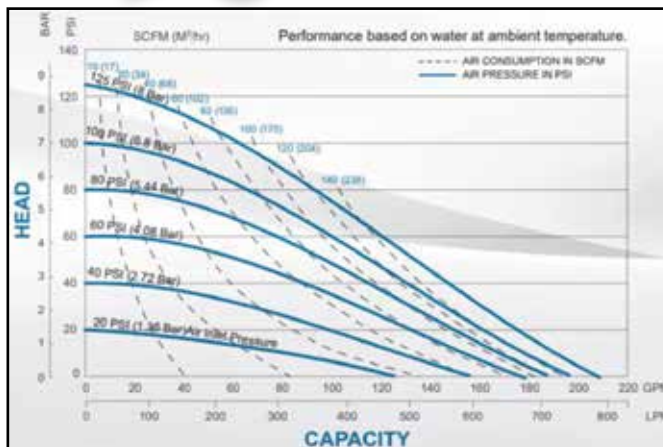

**Maximum Flow:** Up to 208 GPM Maximum Capacity (*Metallic Body*) and 170 GPM (*Non-Metallic Body*)

**Maximum Pressure:** Up to 125 PSI (*Metallic Body*) and 100 PSI (*Non-metallic Body*)

**Available Diaphragm Options:** Nitrile (*Buna*), EPDM, FDA Nitrile, Neoprene, Santoprene, Hytrel, and FKM (*Viton®*)

**Maximum Solids:** 2” Diameter

**Check Valve:** Stainless Steel

Part No.	Wet End Body Material	Non-Wetted Material	Diaphragm Material	Ports	Wt.
SO 20BFAAB	Aluminum	Aluminum	Nitrile ( <i>Buna</i> )	2” FPT	88 lbs.
SO 20BFAAS	Aluminum	Aluminum	Santoprene	2” FPT	88 lbs.
SO 20BFSWT	* Stainless Steel	White Epoxy Coated Aluminum	FDA Nitrile	2” Tri-Clamp	140 lbs.
SO 20BFPPB	Polypropylene	Polypropylene	Nitrile ( <i>Buna</i> )	2” FPT	53 lbs.
SO 20BFPPV	Polypropylene	Polypropylene	FKM ( <i>Viton®</i> )	2” FPT	53 lbs.
