

SNYDER poly storage tanks are built using the highest-density rotationally molded grade polyethylene resin that storage tanks are being molded from today. This high density linear polyethylene (HDLPE) resin – allows Snyder tanks to have superior chemical resistance, impact strength, and stress crack resistance – translating to better performing tanks for chemical applications.

STI SNYDER INDUSTRIES, INC. Commercial Vertical Tanks

FEATURES

- High-density polyethylene with UV protection
- Molded-in tie-downs and lift lugs
- 10", 18" or 20" vented lids
- Molded-in gallonage markers
- Heavy-duty bolted polyethylene fittings standard (550 Gal. & above)
- 13 Lbs./Gal. rating (16 Lbs./Gal. available)
- Maximum drainage siphon assemblies
- Maximum temperature of 100° F
- Standard color is White/Natural (Black, Yellow & Green are also available).

Tanks listed below are engineered for agriculture, chemical & fertilizer storage applications and are NOT FDA & NSF/ANSI61 approved – Please Call for Available Options.

WARRANTY: Standard 3-Year from factory ship date. Extended 5-Year warranty available on Heavy Duty "HD" tanks.

Industrial Vertical Tanks

Industrial Vertical Storage Tanks from Snyder Industries are made from High-Density Linear Polyethylene (HDLPE) in black or natural white color options. Dultmeier Sales standardizes in offering HDLPE Tanks. Cross-linked, high-density polyethylene (XLPE) resin is available upon request – call for details. All materials are UV-stabilized for enhanced longevity in outdoor service. Specific resins available for sodium hypochlorite and sulfuric acid applications – call for pricing and details.

- Tanks built to ASTM D1998 standard
- NSF/ANSI 61 Certified
- Molded-in Tie Down & Lift Lugs
- Broad range of material options for diversity of applications
- Available with IBC 2015/CBC 2016 seismic and 150mph wind restraint tie-down systems
- Specific gravity options on most tanks 1.35, 1.5, and 1.9 - other ratings available upon request
- Confirm FOB points for various tanks
- Complete Drain out Fitting (SUMO) available on many sizes – Call for details
- Fitting configurations available upon request – Tanks are standard with no fitting

* Tanks listed ship FOB from Lincoln – other FOB points and tanks available – call for details.
 ** Type of Fitting Orientation and Number of Fittings Confirmed During Quoting Process.

Small Capacity Vertical Tanks 50 – 400 Gallons

Small capacity polyethylene tanks great for small volume storage applications. 50 – 400 Gallon tanks. Standard color is White/Natural. Rated to 16 lbs./gal. 3-Year Warranty. Tanks made to ASTM D1998 standards have more material per square inch and specific gravity is calculated differently than standard commercial/agricultural tanks – **Call for Details.**
