

High quality, heavy-duty Spring Rewind hose reel packages from BluBird Industries. Corrosion resistant, powder coated steel or stainless steel construction. All reels are standard with hoses as shown. Roller guides, hose stops, bend restrictors and feeder lines are all included. Automatic rewind with 12 point ratchet gear system.

Adjustable guide arm design allows for mounting on walls, ceilings or floors. BluBird may be the only company in the world that manufactures their own reels and hose products to ensure a proper match for a wide variety of applications and needs. Reel packages are available for air, water, high pressure washdown and fuel transfer applications.

Mounting Options

NEW Air Hose Reels

BluBird air hose/reel packages feature rubber air hoses with polyester braid reinforcement that are 40% lighter than traditional hose. Ozone resistant covers. Rated to 300 PSI and from -50° F to +190° F. (Other sizes available on special order.)

Part No.	Hose	Reel Construction
RX BBR3850	3/8 x 50' Rubber	Powder-coated steel
RX BBR1250	1/2 x 50' Rubber	Powder-coated steel

Water Hose Reels

BluSeal water hose/reel packages from BluBird feature ultra-light, super strong rubber water hoses with 3/4" garden hose fittings. Ozone, UV and abrasion resistant. Includes adjustable spray nozzle. Rated to 300 PSI and 212° F. (Other sizes available on special order.)

Part No.	Hose	Reel Construction	Wt.
RX BSWR5850	5/8 x 50' Rubber	Powder-coated steel	45 lbs
RX BSWRSS5850	5/8 x 50' Rubber	Stainless Steel	45 lbs
RX BSWR3450	5/8 x 50' Rubber	Powder-coated steel	48 lbs

NEW High Pressure Hose Reels

BluShield hose reel packages from BluBird feature high pressure, wrapped-cover hoses with Kevlar braid in black or "non-marking" grey. Aramid/Kevlar braided hoses are 35% lighter and yet 5 times stronger than standard wire-braid hose. Rated to 4100 PSI and from -20° F to +250° F.
