Yamada FDA Compliant Sanitary Pumps

***Yamada's* FDA Compliant Air-Operated Double Diaphragm (AODD) Pumps** are specifically designed to meet the demanding needs of the food, pharmaceutical, and cosmetic industries. These pumps are an excellent choice where strict sanitary performance and material compatibility are essential, but full 3A or USDA certification is not required.

All units listed include 316 Stainless Steel housings with a passivated satin finish to protect against contamination, PTFE or Poly-coated air motors, and sanitary clamp fittings. Standard with 125Ra finish on fluid contact surfaces. Pumps under 1.5" are available in 20 to 60Ra finish options - call for details.

- FDA-Compliant components meet strict standards for food, pharmaceutical, and cosmetic applications.
- 316 stainless steel construction.
- Sanitary Tri-Clamp fittings for simplified cleaning and maintenance.
- Handles high-viscosity fluids containing solids or particulates.
- Non-stalling air valve delivers consistent, positive shifting for dependable operation.
