

TT10012

Case Starter Fertilizer Tube Part # TT-10012

This stainless steel tube applies fertilizer in-furrow for Case planters. This tube fits 2012 Case planters and newer only. This fertilizer tube does not place fertilizer below the seed. **Here it is shown with the insecticide tube taken off of the planter.** The stainless steel tube fits inside this part.

Instructions for TT-10012 Case planter fertilizer tube:

1. **Tube must be installed from the bottom.**
2. **Push tube up until it's tight, the tab welded on the bottom of the tube fits inside the insecticide tube.**
3. **Slide the lock collar over the top of the tube, fitting the round tab welded to the lock collar into the insecticide tube.**
4. **Tighten with an allen wrench.**
